Environment:

Windows Server 2012 R2 (x64)

2 GB RAM, with 2 virtual processors hosted on Macbook with SSD disk

Subversion 1.9.0-dev from trunk@r1602928

Test data: Ruby project repository (46054 revisions, 400mb-500mb size on disk)

All tests are performed using default options.

Tests performed:

1. svnadmin load -- loading first 5000 revisions into repository
2. svnadmin dump -- dumping all repository revisions to NUL
3. svn log http:// -- svn log over http:// protocol to NUL
4. svn log file:// -- svn log over file:// protocol to NUL
5. svn export http:// -- svn export over http:// protocol to local disk
6. svn export file:// -- svn export over file:// protocol to local disk
